

CHARUKESH H

Chennai · +91 6374485740 · charukeshharikrishnan@gmail.com · [linkedin](#)

Professional Summary

Cybersecurity undergraduate with hands-on experience in ethical hacking, network security, vulnerability assessment, Linux administration, and malware analysis. Skilled in Python, SQL, TCP/IP, Nmap, Wireshark, Burp Suite, and Kali Linux, with experience developing security-focused projects. Seeking an entry-level Cybersecurity Analyst, SOC Analyst, or VAPT role.

Education

SRM Institute Of Science And Technology, Chennai, India	CGPA: 9.10
Bachelor of Technology in Computer Science and Engineering (Cyber Security)	2023-2027
Velammal Vidhyashram, Chennai, India	CGPA: 8.06
Class XII - CBSE	2022-2023

Projects

Network Intrusion Detection System (NIDS)

- Developed a Python-based Network Intrusion Detection System (NIDS) to monitor and analyze network traffic.
- Implemented detection for TCP port scans and excessive network activity using predefined security rules.
- Extracted network traffic features and created a dataset for intrusion detection and machine learning.

Malware Analysis Sandbox – Automated Threat Analysis Platform

- Developed a web-based malware analysis sandbox for safely executing and analyzing suspicious files in an isolated environment.
- Designed an automated workflow to observe malware behavior and generate structured analysis reports.
- Applied cybersecurity concepts including sandboxing, threat analysis, isolation, and suspicious file analysis.

Technical Skills

- Programming: Python, Java, SQL
- Cybersecurity: Ethical Hacking, Vulnerability Assessment, Network Security, Security Fundamentals, Threat Analysis, Risk Management
- Networking: TCP/IP, OSI Model, IP Addressing, Subnetting, DNS, DHCP, Network Troubleshooting
- Operating Systems: Linux Administration, Linux File Permissions, Disk Management, System Troubleshooting, Windows Administration
- Web Technologies: HTML, CSS, React, Spring Boot, MySQL
- Security & Development: Malware Analysis, Secure Application Development, Authentication, Database Security
- Tools & Technologies: Linux, GitHub, Nmap, Burp Suite, Wireshark, Kali Linux

Certifications

- Cisco Ethical Hacker — Cisco Networking Academy
- Fortinet NSE 1: Information Security Awareness — Fortinet
- Datacom Cyber Security Operations Job Simulation – Forage
- Cybersecurity Analyst Job Simulation – Forage

Additional

- Languages: English, Tamil
- Career Interests: Cybersecurity Analyst, SOC Analyst, VAPT / Penetration Testing, Security Operations, Vulnerability Assessment, Threat Analysis
